

Spectralink 7202 and 7212

Durable, Robust, and Feature-rich Handsets

The Spectralink 7202 and 7212 are designed for long-term dependability and increased mobility in specialised working environments. The functionalities of the robust and feature-rich handsets make them a valuable working tool for personnel within industries such as retail and healthcare. Moreover, the flexible menu structure allows the handsets to be customised to specific vertical markets.

With these handsets, employees will benefit from being able to move around the company freely while constantly being accessible.

For the employee on-the-move, battery life is of utmost importance. These handsets use temperature compensated charging, which allows for quick recharging without damaging the batteries.

Spectralink 7202 Handset

The Spectralink 7202 is a robust, well-designed, feature-rich, and price competitive handset. It meets the demands for mobility and is built for long-term dependability in harsh environments.

Spectralink 7212 Handset

The Spectralink 7212 extends the capabilities of the Spectralink 7202. With the possibility of attaching a headset, it allows users to enjoy hands-free mobility.

BENEFITS

- Customise the handset with third-party applications
- Delivers exceptional voice quality without any background noise, echo, delay, or interruptions
- Resistant to drops and shocks making the handsets more durable
- Allows mobile employees to work more efficiently with extended battery life and quick recharging
