#### **The Hospital Health and Aged Care Exhibition**

Hospital Health + Aged Care is a national biennial trade exhibition of products & services for the design, fit-out & refurbishment of hospitals, aged care & all health care facilities.

This year's show has been themed with a collection of & curios from medicine's past, but the exhibition is all about the very latest in health care products and services.

See fascinating displays of patented medicines, old surgical instruments, even 'Weary' Dunlop's operating table.

The very latest products and services for the design, fit out and refurbishment of hospitals, aged care and health care facilities.

The exhibition also showcases products and services required for the strategic development of hospital and healthcare premises including latest technology training and accreditation programs and industry support services.

Hospital Health + Aged Care is a "must see" for all CEO's, DON's, NUM's, Supply & Purchasing Managers, Hospital Engineers, Facility Managers, Infection Control Officers, Financial Controllers, IT Directors, Health Informatics Managers, Architects, Specifiers, Builders, Consultants and other key industry players.

New products will be "launched" at this event, giving visitors a chance to be some of the first in the country to view demonstrations of innovative and time-saving equipment and services.
