

Wavelink celebrates the sale of its 4,000th KIRK DECTadjunct wireless telephone system

Sydney, 10 October 2007 - Wavelink Communications today announced that it has sold its 4,000th KIRK DECT system in Australia and New Zealand. This milestone reinforces KIRK DECT as being a clear leader in the adjunct wireless telephony market.

KIRK systems are used by a diverse range of industries including retail, manufacturing, hospitality and healthcare, which allows organisations to easily increase the mobility of its workforce as well as expand staff access to core telephony features.

Jonathan Ordman, director of Wavelink said, "The success of the KIRK DECT systems can be attributed to its flexibility and broad range of applications. KIRK handsets are widely recognised for their ability to operate in a wide range of harsh environments. KIRK systems can provide wireless extensions to virtually any PABX or IP voice platform and they integrate seamlessly with onsite text messaging systems such as Nursecall, alarms and building management systems."

KIRK users include the Coles Group, Carlton & United Beverages, Amcor, Warragamba Dam, Burswood Casino, Marriott Hotels and numerous other retailers, hospitality organisations and public healthcare providers.

"There are a number of ways organisations can implement wireless telephony. We find that our customers choose KIRK DECT adjunct systems because of the brand's reputation and reliability, value for money and the knowledge that Wavelink Communications is serious about offering the best in service, training and support," said Jonathan.

Wavelink Communications is the full service distributor in Australia and New Zealand for KIRK DECT, SpectraLink Wi-Fi and ConnexALL messaging.

MEDIA RELEASE

About Wavelink
