

## **Spectralink achieves validation on ShoreTel Unified Communications Platform**

**November 22, 2013** — Spectralink Corporation, a global leader in wireless solutions, and ShoreTel® (NASDAQ: SHOR), the leading provider of brilliantly simple unified communications systems, has announced that Spectralink products achieved validation for ShoreTel's Unified Communications Platform.

As a member of ShoreTel's Innovation Network, Spectralink's 84-Series Wi-Fi Wireless Telephones and 7000 DECT Portfolio handsets along with the IP-DECT Server 400 and IP- DECT Server 6500 were tested and validated by ShoreTel for interoperability with ShoreTel's published interfaces.

"The validation by ShoreTel gives customers confidence that our products have met the highest standards for interoperability and performance," said Sten Dyrmosse, CEO of Spectralink. "It's important that Spectralink integrates with market-leading UC manufacturers to ensure that our solutions support industry leading unified communication systems."

With this announcement, ShoreTel's platform is now compatible with Spectralink's leading Wi- Fi and DECT workplace wireless communication solutions, which enable in-building mobile personnel like nurses, retailers and manufacturers to easily connect with customers, colleagues, and all the applications they need to perform their best. The Spectralink wireless solutions deliver enterprise-grade on-site voice mobility, with HD voice quality, durability, and broad telephony and wireless infrastructure interoperability. Tying into your telephone system, voice mail and directories, the Spectralink solutions also support text alerts and instant messaging.
