Wavelink Expands Kirk DECT Cordless Sales To New Zealand

Wavelink Communications have expanded sales of their Kirk Dect cordless PABX solution into New Zealand with the appointment of Agile as their New Zealand Distributor.

Agile is well known throughout New Zealand as a leading distributor of telecommunications and data solutions. With annual turnover exceeding NZ\$18M and a staff of over 40, their Auckland Head Office is supported by an office in Wellington. In addition to the Kirk product, Agile's agencies include:

- Lucent Technologies Voice and Data Products
- BreezeCom Wireless
- OKI Key Telephone Systems and VoIP Products
- GMA Voice Mail Systems

The Kirk dect-z 1500, which will attach to virtually any PABX, is the product of Danish telecommunications giant Kirk Telecom A/S (www.kirktelecom.dk). Supporting up to 128 handsets makes the Kirk system ideal for large site installations such as office buildings, hospitals, warehouses, factories, car yards, construction sites, hotels, shopping centres etc. Target users may be supervisors, technical support personnel, security staff, building maintenance supervisors, managers or hospital specialists. The Kirk dect-z 1500 system delivers not only voice telephony, but also integrates with text messaging applications like paging, PC/LAN messaging, alarm monitoring and e-mail forwarding. E-mail forwarding is a significant new development, as it allows users to view their incoming e-mails on their Kirk cordless handset, for immediate action when away from the desk.

Wavelink Communications (www.wavelink.com.au) specialises in the supply; marketing and support of a range of leading edge digital wireless telephone systems and associated products that provide cost effective business solutions to Australian organisations. With offices established in Sydney, Melbourne and Perth, Wavelink are able to have a local presence covering the bulk of the Australian market. Wavelink is the exclusive Australian distributor for a range of products from Kirk telecom A/S (Denmark www.kirktelecom.dk) and Hagenuk GmbH (Germany www.hagenuk.de).
